### ROCKY POINT FIRE/EMS BOARD NEWS

OK, so we messed up on last month's fire department minutes. If you really want to know what happened at the July, 2009 meeting, Rita posted those minutes at the kiosk and Solar Café. Now to the August fire department happenings.

All Board members, Fire Chief, and 2 guests attended. Minutes and matters of money were quickly resolved, in order to move on to the Fire Chief's report. Volunteers responded to 1 MVA with transport, 7 medical aids with 5 transports, 3 smoke checks, and 1 illegal burn. In their spare time, they also participated in 63 hours of training. Quilt used the Aspen Room 4 days.

Old business kicked off with the announcement that approval is in the works for boundary signs. Site preparation is under way for the new fuel tank. Final report on the BBQ is that it made \$10,200. This agenda item concluded with details on the Fire Chief's credit card.

New business focused on the upcoming meeting with USFS concerning the Four Mile Quarry designation in the Travel Management Plan. The Board unanimously agreed to endorse a document detailing impacts of that designation. The Board also discussed a request for using the Aspen

Room, which will be revisited at the next meeting, after a discussion with Special Districts. Three big announcements — 1. The Fall Festival is coming on October 18<sup>th</sup> 2. We received a 50/50 match grant from VFA 3. The hope is to again offer flu shots at the Fall Festival. Oh, and you're invited to any of the Board meetings, 2<sup>nd</sup> Tuesday of every month.

*Complete & official minutes available at Fire Hall, 356-2205. This Institution is an equal opportunity provider.*

## RUNNIN' AROUND

Guess the biggest travel excursion was for the 28 Rocky Pointers who spent a long Labor Day weekend camped out together at Remote, Oregon. Crawdads, dominoes, poker, awesome potlucks, horseshoes, charades, conversation, laughter, and several other events kept everybody pretty well entertained. The *several other events* fall in the category of "What happens in Remote stays in Remote."

**Bob and Gale Lemas** had such a good time camping out that they continued on from Remote to Victoria and related geography.

Other folks opted for different celebrations of the holiday. **Swansons** loaded up the toy hauler and helped children and grandchildren ATV select parts of the coast. **Tracys** also vacationed at the coast with friends.

**Griebs** hit about every casino and fabric store between here and Montana, their destination for a week of exploring. They made a hurried return stop back at home before making tracks to Reno for the air show and family/friend visiting.

**Feliciellos** motorhomed around Bend, also visiting dear people in their lives. **Meridel** joined up with sorority sisters from the past for some girl time in Tuscon.

**Eddie & Scott**, well they just went hunting in the hinterlands.

## FYI

Many of you get your flu shots at the Fall Festival, and it's our hope you can again take advantage of that service. At this time, we still don't know if they'll be available or what kind will be offered. Regular email announcement recipients will be notified as soon as possible. Others may continue to check the kiosk for an announcement

## REMINDERS

Cooling nighttime temperatures and morning moisture don't mean we're out of fire season or danger. Continue to observe all burning restrictions and be extra careful when using motorized equipment. Have the recommended fire tools at hand. Changes in fire level are posted on USFS signs and often in front of the fire hall. If in question about the safety of your plans that involve fire, contact personnel at the fire hall.

## FROM THE READERS

At the risk of reminding everyone about the inevitable upcoming winter and its accompanying snow, Mike Hiatt urges anybody who wants to secure his plowing services for the season should contact him soon (356-2105). The number of customers accepted is limited, in order for him to be able to accommodate all of them.

A new retiree greeter at Wal-Mart just couldn't seem to get to work on time, every day, 5, 10, 15 minutes late. But he was a

good worker, real sharp, so the boss was in a quandry. Finally, one day the boss called him into the office for a talk:

"Fred, I have to tell you, I like your work ethic; you do a bang up job, but your being late so often is quite bothersome."

"Yes, I know Boss, and I am working on it."

"I know you're retired from the Navy. What did they say if you came in late there?"

"Usually, they just said, 'Good morning, Admiral.'"
